

If you want to add The Church Alive Podcast to your Microsoft Zune Device, please follow these simple steps:

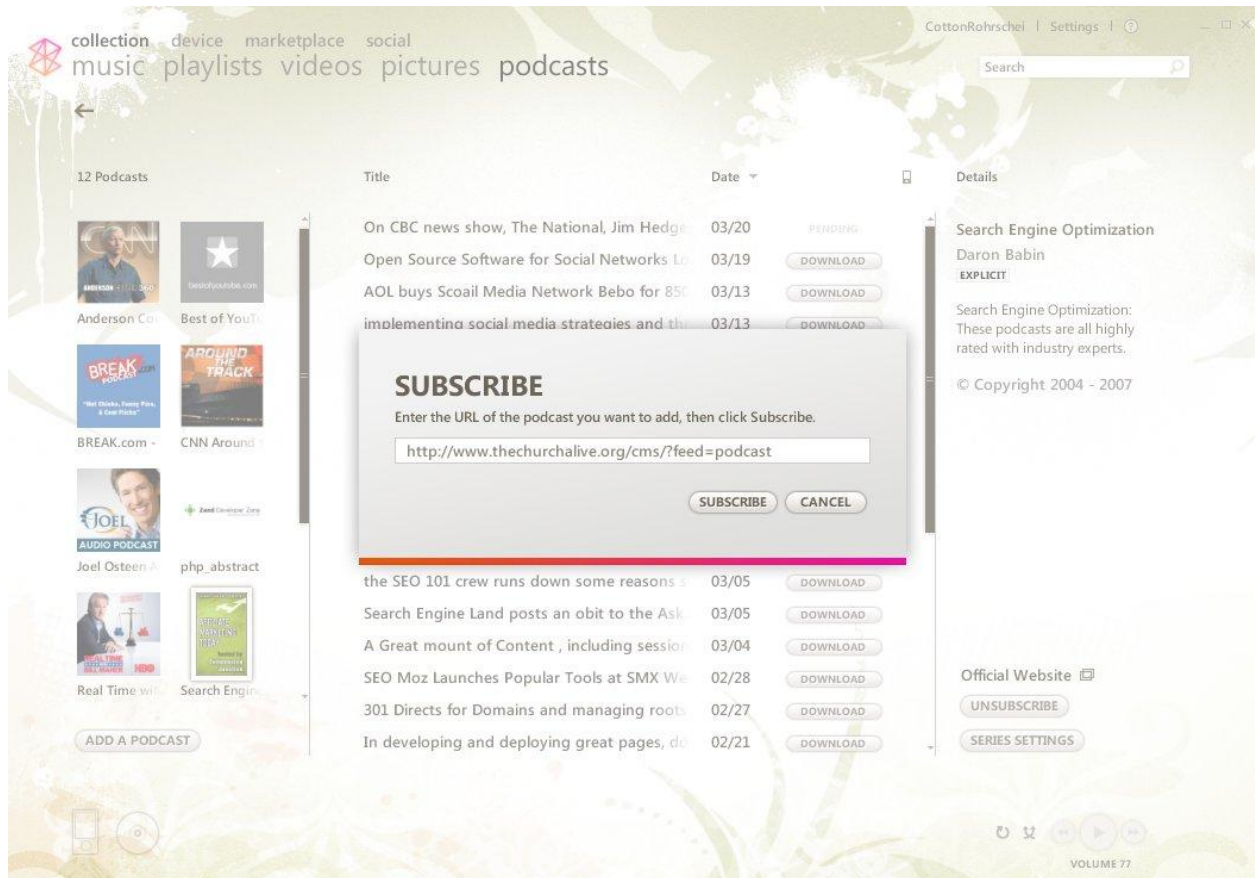

1. Open the Zune Application on your Computer, once it opens select the Podcasts Tab.

2. Once inside the Zune Application in the lower left hand column you will see, "ADD A PODCAST", click on this button. A window will popup asking for the URL to the podcast, input the following URL:

<http://www.thechurchalive.org/cms/?feed=podcast>
(see image below)

Once this is complete you should be all set.

Once this Podcast is setup on your PC in your Zune Application it will automatically update for you each time a new podcast is added. See image below, it has been tested and works great with Zune.
